

Meadowland Charter District

Accepted / Filed
JUN 14 2017

Federal Communications Commission
Office of the Secretary

Waiver Request
Schools and Libraries Program: CC Docket No. 02-6
Billed Entity Number: 16080275
FCC Registration Number: 0024518946

In March 2017, Meadowland Charter District was approved to open a new campus on the south side of San Antonio, Texas to provide educational services to students at a residential treatment center. Attached you will find the Texas Education Agency approval letter for the campus.

Campus Name: Mission Academy

Address: 3775 Rabel Rd. San Antonio, TX 78221

Form 470 Number: 170066194

On April 12, 2017 we submitted our 470 and started the competitive bidding for 1 existing service, and 2 new services, one of them being internet service for the new campus:

"New Services - Meadowland Charter District - The Mission Academy - 3775 Rabel Rd., San Antonio, TX 78221 | Fiber Connectivity - 30MB down/20MB up - plus any additional requirements for setup."

Due to the rural location of the campus, the competitive bidding process has shown that nearly all ISP's in the area are unable to provide service requested in the form 470. The only ISP that can possibly meet our minimum requirements at the current AT&T. The 28 day window is now closed and AT&T's ecap team is currently still working on site survey and construction feasibility to provide the campus with fiber internet connectivity.

Meadowland Charter District, Mission Academy Campus Location:

DOCKET FILE COPY ORIGINAL

Due to the above circumstances we request a waiver on filing our 471 until all options for providing the new location with suitable internet service have been exhausted.

Dr. Donald Mills
Meadowland Charter School
121 Old San Antonio Road
Boerne, Texas 78006

Dear Dr. Mills:

The commissioner has approved the following amendment requests:

(014-17/1) MEADOWLAND CHARTER SCHOOL to add a site under campus #130-801-001, in a residential facility, to be located at 3775 Rabel Road, San Antonio, Texas 78221, to serve students in grades one (1) through twelve (12), effective July 1, 2017;

(014-17/2) MEADOWLAND CHARTER SCHOOL to add Southside ISD to the charter's geographic boundary, effective July 1, 2017; and

(014-17/3) MEADOWLAND CHARTER SCHOOL to increase the maximum student enrollment from 250 to 300, effective July 1, 2017.

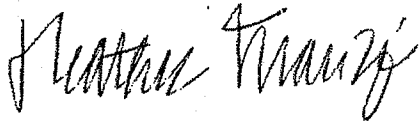

If the charter holder fails to open the new site by the beginning of the 2017 school year, a non-expansion amendment must be filed, no later than August 1, 2017, with the Division of Charter School Administration requesting a one-year postponement. Note that the agency's approval of the postponed site will become null and void should the charter holder fail to open the facility by August 1, 2017. Any expansion to the charter's geographic boundary which was associated with the proposed site is forfeited.

The approval of a new site is contingent upon the receipt of a certificate of occupancy (COO), or equivalent certificate, appropriate for the proposed use of the facility. Please submit the COO, or equivalent certificate, for the new facility to the Division of Charter School Administration prior to serving students. Failure to provide the COO, or appropriate certificate, may result in funding being denied or reclaimed.

Dr. Donald Mills, Superintendent
Meadowland Charter School

Hello Evan
I am still awaiting the ecap construction results.

Can we take a look at what it would take construction wise? We're running out of options to get wired internet, fiber or anything for that matter. If it means us fitting part of the bill that is fine, it is worth it for us as we plan on being in the location long term. I know there are other businesses/residential in that area that would be potential customers.

I'm not sure if there are other options if fiber is not available, DSL maybe. If we could also look into that.

Hello Evan
I just checked again...The surge team returned the 470 as out of region so I don't have the price for the special construction.

We would be looking for an August install, the facility is a breaking ground now and should be complete. I also know that the other organization, a residential treatment facility, who has a buildings on the property is interested in hard lined internet. Although they wouldn't be a fiber customer, probably a broadband, I know that may help. I haven't submitted our 470 for ERATE 2017-2018 yet, I will try and include that in some sort of way to get it covered.

Hello Evan,

Thank you for your interest in AT&T. Address 3775 Rabel rd. San Antonio, TX 78221 is not within 500 feet of a fiber path owned by one of the AT&T incumbent local exchange companies. With that said, I will need to consult with the special construction to see if there will be additional costs involved with servicing your school district.

This process is generally 7-10 days.

- How soon were you planning to install the circuit?
- Also—are you filing for erate government funding to pay for the circuit?

Tier 4 address located in LATA 566 SAN ANTONIO TEXAS and in the AT&T SNANTXWA wirecenter
